# MOTIVATION

“Exchanging books save you time, money, shelf space, and environment.”

# WEBSITE DEFINITION

BookXchange is a community for exchanging used books for free.

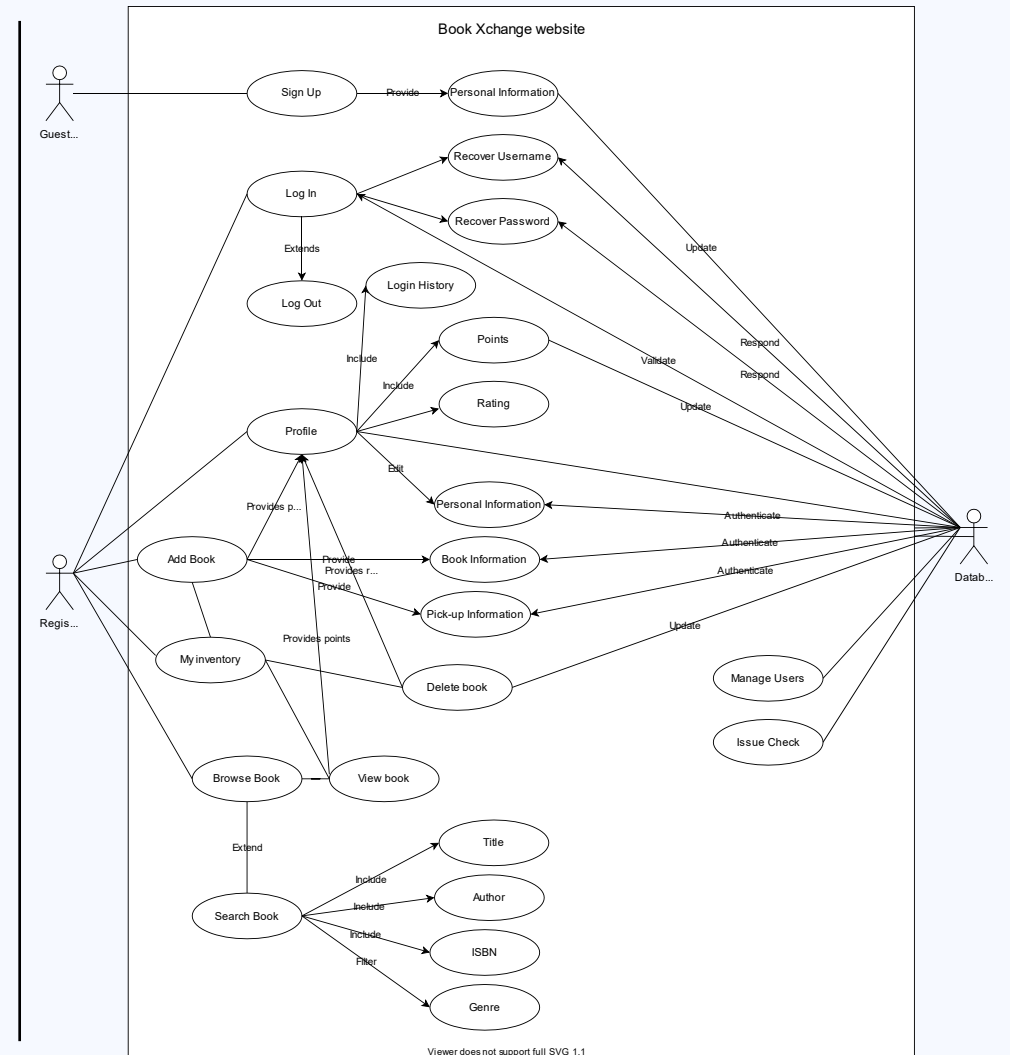

It's a great crime to have a book disappear, out of print, for none to read. We keep books in circulation and find new readers for them.

You give your books you no longer need in exchange for book you really want.

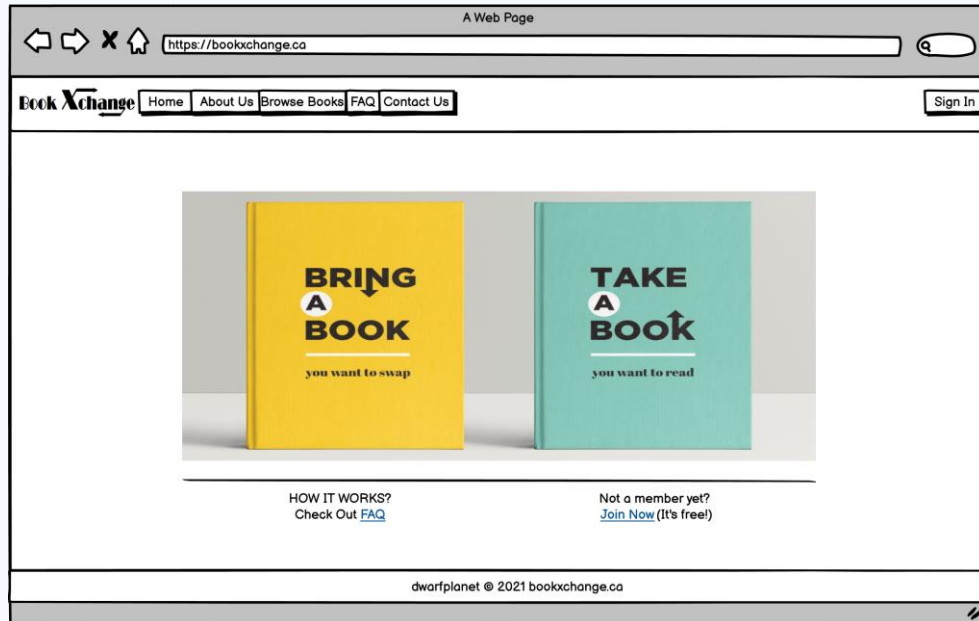

We strive to make a platform where locals exchange books and try to contribute to the community.
